ECOLOGY NORTH

## Ecology North hosts community conversation on climate change, income security

**FOR IMMEDIATE RELEASE 03/05/2022**

YELLOWKNIFE: Ecology North, in partnership with Alternatives North, has completed a community conversation on the links between climate change, income security and community resilience across the Northwest Territories.

Organized in partnership with the Green Resilience Project, the conversation aimed to identify and document a wide range of perspectives on what community members need to build resilience and encourage local action on all the aspects of the climate crisis.

Climate change and income insecurity are two of the most urgent challenges facing NWT residents. The conversation brought community members together to discuss the connections between these issues, brainstorm solutions and identify what they need to put them into action.

Details from the conversation will be shared in the Green Resilience Project's final report, to be published in April 2022.

The Green Resilience Project is managed and delivered by Energy Mix Productions, Basic Income Canada Network, Coalition Canada Basic Income - Revenu de base, Basic Income Canada Youth Network, national experts and local partners. Funding is generously provided by Environment and Climate Change Canada's Climate Action and Awareness Fund.

Ecology North is a charitable, non-profit organization based in Yellowknife, Northwest Territories, Canada that was formed in 1971 to support sound environmental decision-making on an individual, community and regional level.

Ecology North maintains collaborative partnerships with a number of other local community and educational organizations to promote public education, sustainable living and climate change adaptation and mitigation on environmental initiatives.
